

Dear Segar,

Attached is the adjusted programme for the four of you — **Tuesday 22 to Saturday 26 December 2026** — sent to us by an associated travel agency in San Pedro de Atacama, one we work alongside and recommend. It is set out in full in the attached quotation, exactly as they sent it — **we have simply put it into this format so that it is easier to read and understand**. The programme, the prices and the terms are theirs, unchanged.

- \$ You pay the agency in San Pedro directly, in your own name.** Every figure in the quotation is their own price — nothing added on top, no commission taken out, and Tourevo never receives or holds your money.
- ≡ The park entrance fees are not included in the programme price.** They are listed park by park in the quotation, at the prices for foreign visitors — some of the parks have different prices for Chilean visitors.

TOTAL PROGRAMME · 4 TRAVELLERS

CLP 580,000 per person · entrance fees not included

CLP 2,320,000

To confirm the reservation: CLP 1,212,000 — 40% of the programme (CLP 928,000) plus the total of the entrance fees (CLP 284,000), which have to be bought in advance. The balance is paid when the programme begins.

⚠ SUBJECT TO AVAILABILITY

In the agency's own words: their reservations are materialised well in advance, which normally means **their diary fills up early and no longer admits new entries**. Nothing in the attached quotation is held until they have your confirmation, so the sooner we close it the better.

Confirming early also costs you nothing. Their terms return **100% of the deposit** on any cancellation made at least 90 days before the programme begins — **23 September** for these dates — and allow a **postponement at no additional cost**, with the deposit intact for the next date, up to 60 days before, which is **23 October**.

Tell me to go ahead and I will confirm your dates with the agency in San Pedro.

With warm regards,

Juan Pablo
