Segar — a second quotation for San Pedro, from another agency there. Every excursion and both transfers are private: the vehicle is yours alone. This figure is complete — services and park fees included, nothing left to pay on the ground. As before, you would pay the agency directly.

TWO THINGS WE ARE STILL CONFIRMING

A guide in English for all five days.

What the Cejar afternoon covers. Their list names «Laguna Cejar» only; the first quotation included Ojos del Salar and Laguna de Tebenquiche in the same outing.

Nothing is reserved yet — we are confirming those two points and the availability of your dates.
