

San Pedro de Atacama · five days in the desert

The programme adjusted to what we discussed, with every excursion broken down — service, park fees and subtotal — and the full pack total at the end. It also carries three alternatives for Thursday morning and the vehicles we run.

No. COT-2026-0160

Issued 24 Aug 2026

Valid until 07 Sept 2026

Segar, thank you for trusting us with this trip. Here is the programme adjusted to what we discussed, with **every excursion broken down into service, park fees and a per-person subtotal**, and the pack total closed out at the end — so nothing is a surprise on arrival. At the end we have left three alternatives to Thursday morning, in order of preference, which we think are more fun than the sandboarding depending on the ages of the travellers.

Warmly, **Juan Pablo** · Travel Manager, Tourevo
